SUMMARY

Computer Science and Design undergraduate with hands-on experience building full-stack web applications, working with relational databases, and integrating APIs. Skilled in Python, JavaScript, and data-driven development, with a strong foundation in UI design and backend engineering. Passionate about leveraging data and software to extract insights and build scalable, user-focused solutions.

EXPERIENCE

AICTE Intern — CODINGMISSIONS IT SOLUTIONS 2025-05-21 — 2025-07-01

- Completed a certified 6-week AICTE internship focused on Python programming, gaining hands-on development experience.

EDUCATION

B.Tech in Computer Science and Design (KTU) — Present
Viswajyothi College of Engineering and Technology

Higher Secondary Education (DHSE) — 2022
St. Joseph's Higher Secondary School, Kodenchery

Secondary Education (SSLC) — 2020
St. Joseph's High School, Kodenchery

SKILLS

- Languages:** Python, JavaScript, C, SQL
- Frameworks & Libraries:** React, Node.js, Django
- Databases:** PostgreSQL

PROJECTS

ResumeIQ — AI-Powered Resume Analyzer *React · Node.js · PostgreSQL · Groq*

- Built a full-stack web app that analyzes uploaded resumes using a hybrid scoring engine combining rule-based heuristics and AI via Groq's LLaMA-3.3-70B model.
 - Designed a responsive dashboard (React + Vite + Tailwind) featuring score breakdowns, visual score cards, and per-section feedback.
- Integrated AI-generated resume scoring across key sections (skills, experience, education, formatting) with detailed improvement suggestions returned to the user.

CERTIFICATIONS

- Event Coordinator – VisionMark, TechFest
- Introduction to AI Tools
